Circle of Security Parenting® implements attachment practice in an accessible step-by-step process. The tapes and program contents can be used in a variety of settings including groups, home visits, during family therapy or individual sessions with parents. The tapes have been remastered for use in Australia.

This 4-Day training program uses an 8 chapter DVD to educate caregivers. The program presents video examples of secure and problematic parent/child interaction, healthy options in care-giving, and animated graphics designed to clarify principles that are central to COS®.

Dr. Kent Hoffman is one of the four originators of this program. He is a clinical consultant for attachment related interventions at the University of Maryland, University of Virginia, Tulane University, and Tamar's Children (a project in Baltimore, MD utilizing Circle of Security™ interventions with incarcerated mothers). He is also on the psychology faculty at Gonzaga University and is a training and supervising psychotherapist with the Center for Clinical Intervention at Marycliff Institute Spokane, Washington. Kent was recently given the Child Advocate of the Year Award by Spokane Head Start and the Washington Children's Alliance. He is a clinical member of the American Association of Marriage and Family Therapists, the Society for Research in Child Development, and the International Society for Buddhist-Christian Studies. He is currently leading a variety of groups for homeless teenage parents and other high-risk populations.

Participants of the four day training will receive:

- **Circle of Security Parenting © DVD**
- **Circle of Security © Training Manual**
- **Parent handouts**
- **License to use these materials to teach the Circle of Security program to Caregivers**

Registration covers arrival/morning/afternoon tea & all of above.
Registration costs: 4 day training is approximately \$1000 AUS discount for all group bookings on same credit card
